

Elcom Technologies Received Recurring Order for \$1M

Rockleigh, New Jersey – Elcom Technologies, Inc. announced today the receipt of a new contract for \$1 Million from a major United States Aerospace - Defense military contractor, for a high performance VME based synthesized RF source and synthesized broadband downconverter. Elcom was initially selected due to its ability to integrate synthesizer and tuner in a VME package. This recurring contract will require support through 2009.

Elcom designs and manufactures RF and Microwave instruments and modules for ATE, Aerospace/ Defense, SIGINT and SATCOM applications. Proprietary technologies include low phase noise fast switching direct analog synthesis, low noise indirect PLL designs, and RF DSP up to 40GHz.
